Wow - this took way longer than I had hoped. It's still pretty long, but I think it's much improved...

Thanks,  
Dawn

Non-responsive to FOIA request

**Region 9 Superfund Program in Arizona**  
**Background Briefing Document**  
**Quarterly Meeting with ADEQ**  
**May 15, 2009**

Non-Responsive to FOIA

## Non-Responsive to FOIA

### **OU3/West Van Buren WQARF Site and Roosevelt Irrigation District (RID): (ADEQ agenda item)**

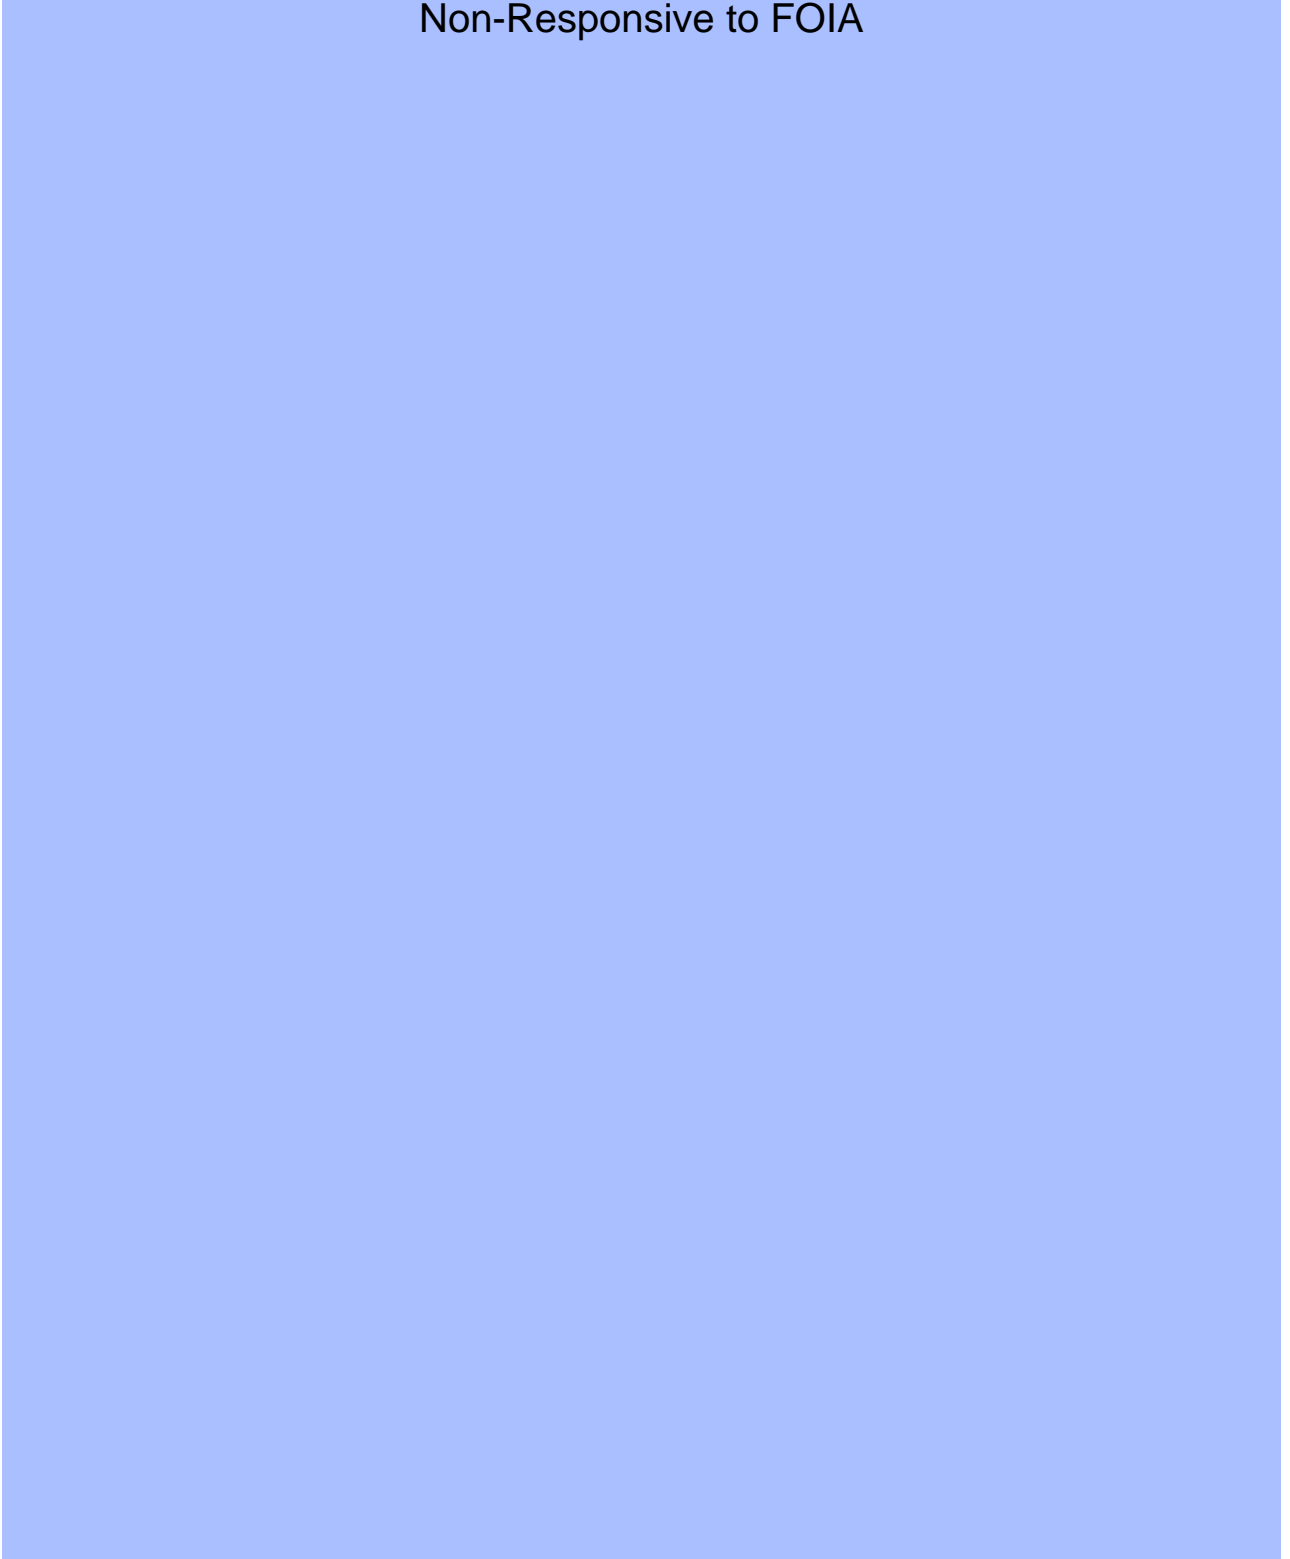

- The RID currently pumps contaminated groundwater from the West Van Buren (WVB) area and delivers the water for irrigation use. RID met with ADEQ in March claiming to be an injured party and proposed treating groundwater to MCLs in exchange for release from Superfund and WQARF liability. They are also proposing selling the treated water to be used as drinking water for nearby Cities. RID proposed construction of treatment facility as an early action and coordinating remedy with ADEQ and EPA. RID has requested a meeting with ADEQ and EPA management to discuss their proposal on May 18th.
